

Innovative molecule management in the context of the circular economy

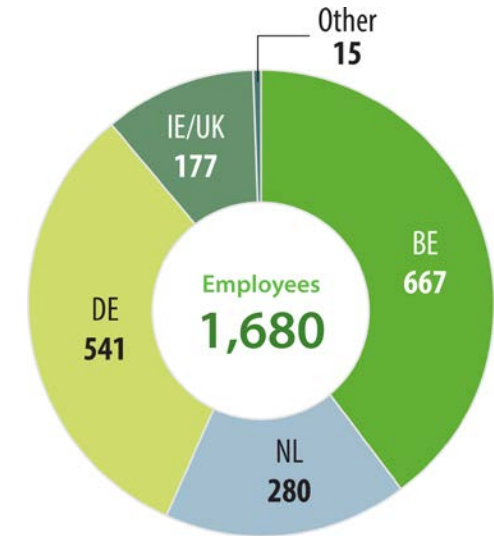

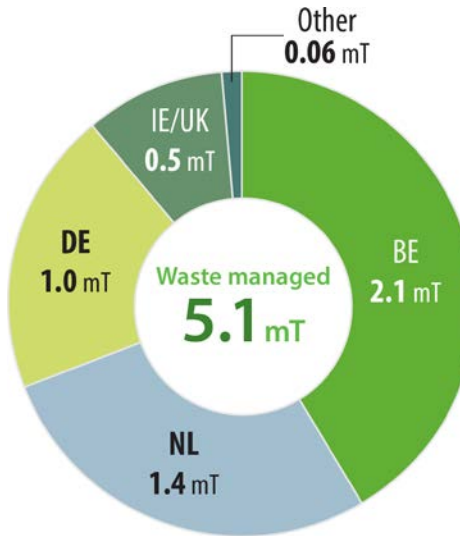

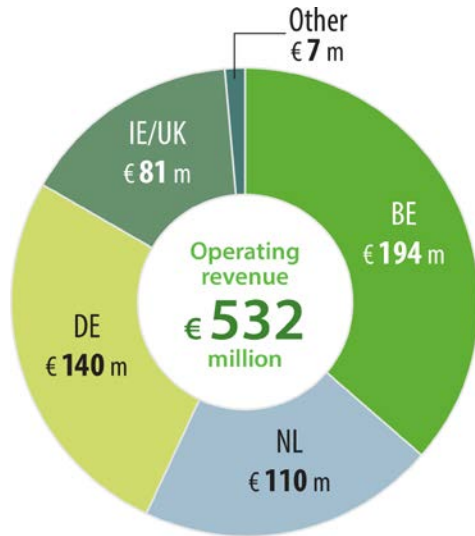

ISWA'15
WORLD CONGRESS
ANTWERP

- Paul De Bruycker
- Tuesday, September 8th, 2015
- Plantijn Room 1.23

Indaver is a solid company

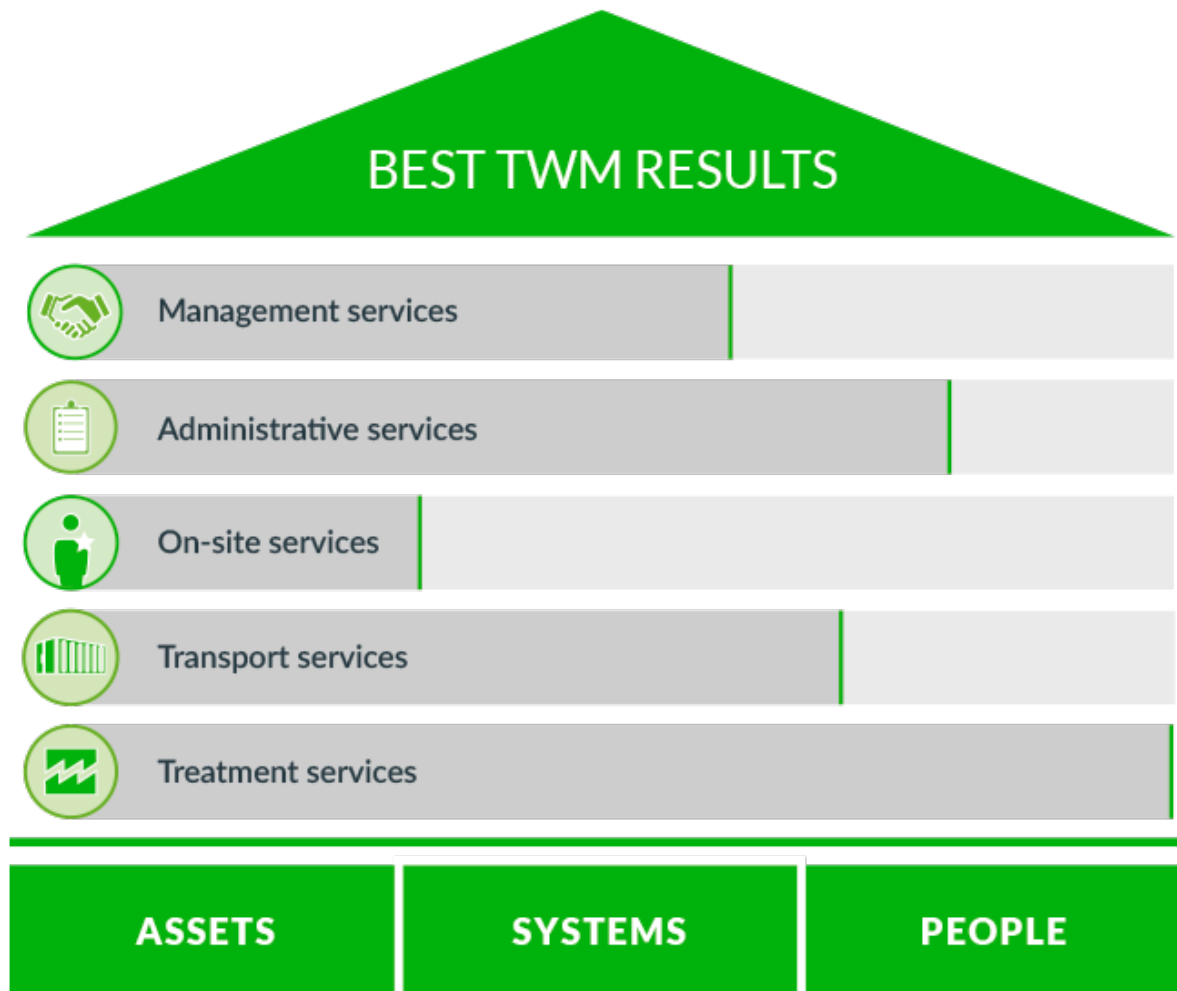

A solid company with a focus on growth

Indaver Group employees
1,680

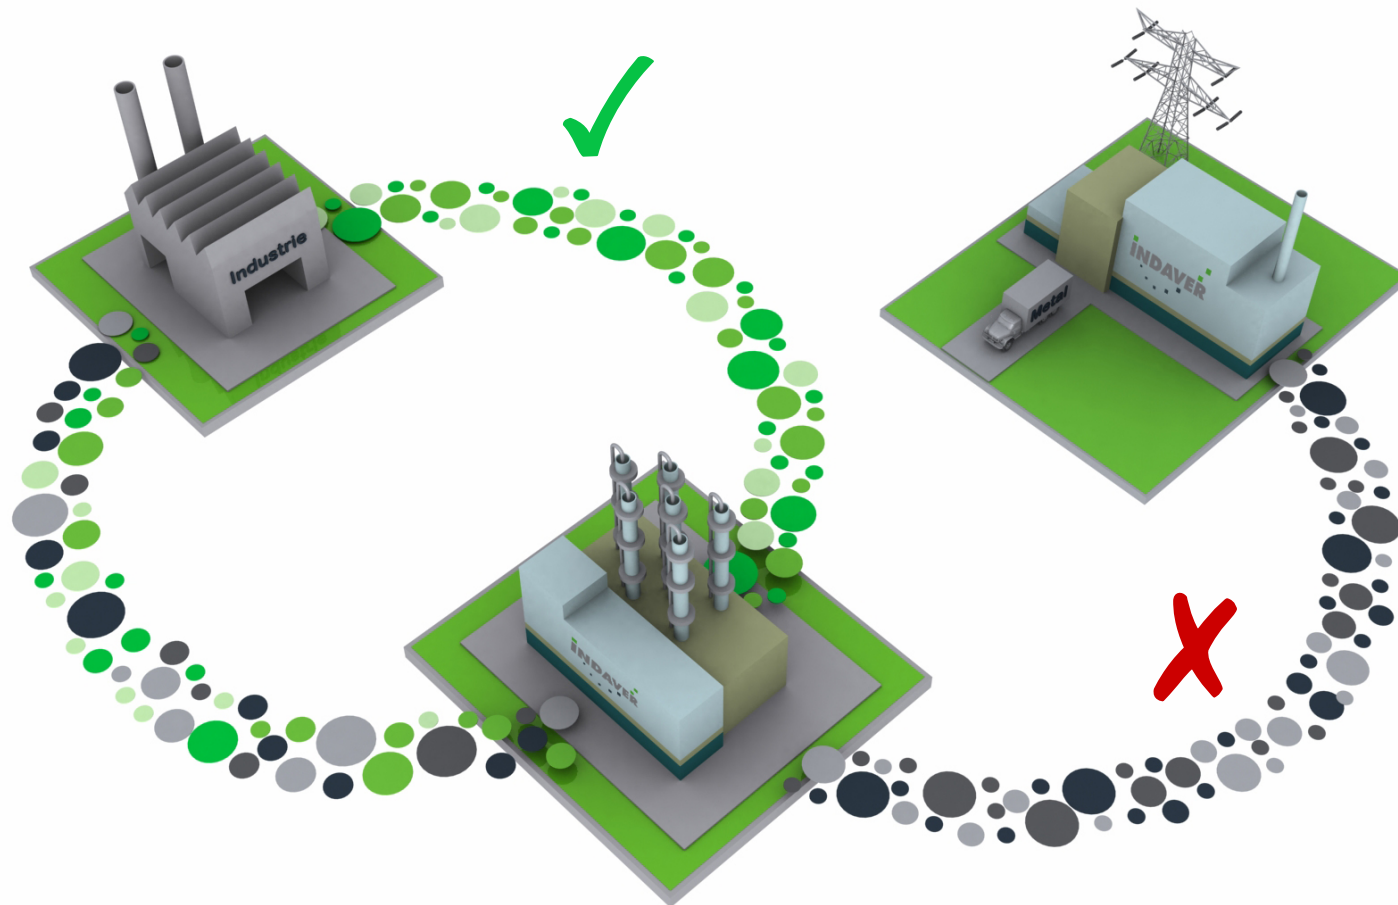

...delivering a full package of Total Waste Management services to industry and municipalities

Tailored to the needs of each customer, co-creating the best solution

Zero waste?

PHASES OF EVOLUTION (FLANDERS)

1

Rule & Control Phase

- Protection from pollution
- Sanitary landfills, emission standards for treatment installations, etc.

Flanders from 1985 till 2000, some countries still in this phase

3

The Recycling Society

- The waste hierarchy (reduce, reuse, recycle, recover, dispose) becomes mandatory

Flanders from 2005 till 2014, Europe's aim for 2020

2

Managing Phase

- Organise & optimize treatment
- Create awareness (prevention, recycling, producer responsibility, etc.)

Flanders from 2000 till 2005

4

The Circular Economy

- Resource efficiency (use less)
- Sustainable recovery (use recovered)
- Driven by the Principles of Economics

Flanders from 2014 onwards >>>

1985 - 2000

2000 - 2005

2005 - 2014

2014...

Sustainable waste & material management

MAKE AVAILABLE
Design or adapt
technical processes

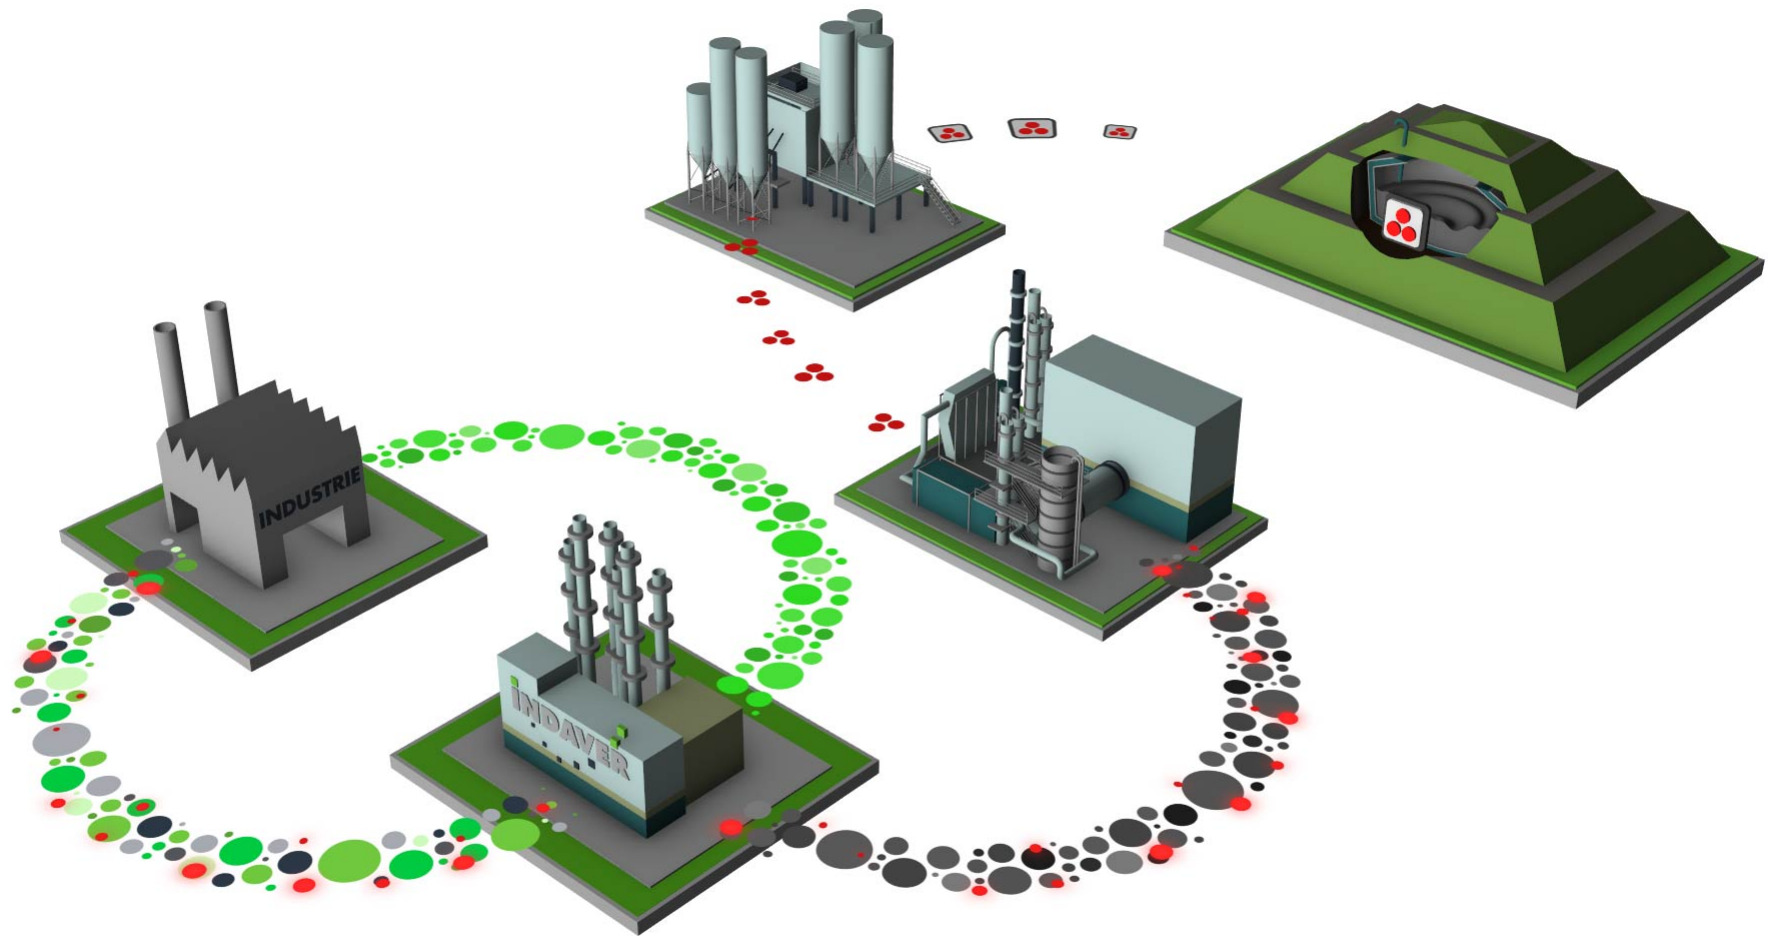

MAKE AFFORDABLE
Recover value
Consider ease of use
Efficiency

MAKE RELIABLE
Pure material
No liabilities
Quality

While keeping the living environment and the circular economy safe and clean

We need trust and cooperation to realize a sustainable circular economy!
